

BDi Hanging Template

iO Mirror

To hang your iO mirror at BDI's suggested height:

- Mark wall with pencil at 65" height and at desired center point of mirror location.
- Align bottom center of template with pencil mark.
- Level template so that string hangs down along centerline.
- Once template is level, press a nail through dots specified for your BDI Mirror.
- Use nail marks to locate mirror hangers.

69" iO Mirror Model 3451

Bottom edge of template should be 65.0" from the floor.

Prior to hanging iO mirror Model 3451:
Attach shelf with included hardware as per
figure at right.
