The year's best designs, from electronics to furniture.

BDI Marina

Sailing Into View

By combining ultra-chic 1950's styling with modern features, BDI's Marina elevates itself beyond the realm of countless lookalike multimedia centers.

Like other BDI home theater stands, Marina is fitted with vented shelves, integrated cable management, IR-friendly glass doors, and hidden wheels.

But its quality craftsmanship, robust construction, and meticulous detailing help elevate Marina to fine furniture status.
